HOW YOUR DONATION WILL HELP US

LAND-BASED EMPLOYMENT

We currently have 2 challenges facing us as the need for this service grows, in order to increase our capacity to meet this need.

1. Rural Employment Manager – we need to raise the first 2 year's costs (£90k) to recruit and employ a full time Rural Employment Manager who will be responsible for co-ordinating work experience and employment opportunities all over the UK.

2. Measurement and Evaluation of Rural Weeks – we are working with Professor Zoe Morrison to consolidate existing service user feedback and develop a robust inclusive method of service evaluation to achieve an evidence base to inform service development and delivery. We need to raise £9,250 to fund this.

HORTICULTURAL THERAPY AT STANFORD HALL

Our new hens will be arriving in the Spring and we need to buy some electric fencing to keep Mr Fox out (£500) and looking towards next Summer, we need to buy a 3m square gazebo to take to shows.

The [Friends of HighGround](#) are planning fundraising events to help us, and if you would like more information about how you can get involved please don't hesitate to contact anna@highground-uk.org
