

HOW TO...

Make a mini bug hotel

1. Pick a plant pot and thread string through the drainage holes in the base.

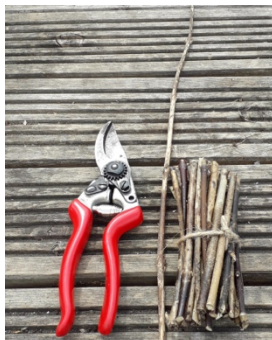

2. Cut a strip of corrugated cardboard.

3. Tightly roll cardboard and secure with string.

4. Add a couple more.

5. Cut lengths of twigs to length of plant pot and tie in a bundle together.

6. Place twig bundle in plant pot.

7. Forage some hollow stems.

8. Add hollow stem bundle to plant pot.

9. Add pine cones.

10. Fill the gaps with moss making sure your materials are tightly packed.

THIS IS A USEFUL TASK FOR:

Fine motor skills, dexterity, grip strength, hand-eye coordination, patience, concentration, following instructions, memory, learning new skills, mindfulness, expressing creativity.
